Sight Won All Three Top Prizes at Anthem Film Festival 2025

Dr. Ming Wang, Harvard & MIT (MD, magna cum laude); PhD (laser physics), Director of Wang Vision Institute and the subject of the movie *Sight* (angel.com/sight), has announced today that *Sight*, distributed by Angel Studios which distributed the Bible Story *The Chosen* and *Sound of Freedom*, has been won all three top prizes at Anthem Film Festival 2025: The Grant Prizes, The Audience Choice Prize and the Best Narrative Feature Film Prize, June 13-14, 2025 at Palm Springs, CA.

Dr. Wang is the director of Wang Vision Institute, Nashville TN, which provides state-of-the-art laser vision procedures including SMILE (18+, small-incision LASIK), Implantable Contact Lens (21+), Forever Young Lens (45+, to get rid of both distance and reading glasses) and LASER cataract surgery (60+). The center also provides the advanced treatment

for dry eyes using amniotic membrane contact lens that Dr. Wang has invented. Dr. Wang and his team have performed over 55,000 laser vision procedures, including on over 4,000 doctors.

Sight (FREE link: www.sight.drmingwang.com) tells the story of a Chinese American immigrant Dr. Ming Wang, Harvard & MIT (MD, magna cum laude); PhD (laser physics), and his sight foundation's work in helping blind orphan children from around the world and in finding common ground between faith and science by developing amniotic membrane contact lens and donated to the world which has helped millions regain sight.

Dr. Ming Wang, Harvard & MIT (MD, magna cum laude); PhD (laser physics), is a world-renowned laser eye surgeon, philanthropist, and a co-founder of the Common Ground Network. As a teenager, Ming fought valiantly to escape China's Cultural Revolution – during which millions of innocent youth were deported to remote areas to face a life sentence of hard labor and poverty. He came to America with only \$50 and earned two doctorate

degrees, one in laser physics and one in medicine, and graduated with the highest honors from Harvard Medical School and MIT.

The amniotic membrane contact lens, which Dr. Wang has invented (and holds two U.S. patents), has been used by tens of thousands of eye doctors throughout the world in nearly every nation, and millions have had their eyesight restored. Wang Foundation for Sight Restoration has helped patients from over 40 states in the U.S. and 55 countries, with all sight restoration surgeries performed free-of-charge. Dr. Wang was named the Kiwanis Nashvillian of the Year for his lifelong dedication to help blind orphaned children from around the world.

The film *Sight* is based on Dr. Wang's autobiography *From Darkness to Sight* and co-stars Greg Kinnear. Watch the movie *Sight* for free at this link: www.sight.drmingwang.com. To reach Dr. Wang email drwang@wangvisioninstitute.com. For more information visit www.drmingwang.com
